Spray [1-2 pumps of trigger] [1-3 grams] contacting insects directly. Insects contacted by spray will be killed.

SPACE SPRAY

FOR RAPID KILL OF *Houseflies, Fruit Flies, Mosquitoes, Gnats, Small Flying Moths, Sand Flies, Wasps* and *Hornets*: Close doors and windows and shut off ventilating systems. Apply using a good machine adjusted to deliver a fine mist. Direct spray toward the upper portions of the room to fill the entire area with mist, using 1 to 2 ounces per 1000 cubic feet of space. Keep the area closed for ten minutes after treating.

SURFACE APPLICATION

Apply at a rate of 1 gallon per 750 sq. ft. as a general surface or crack-and-crevice spray.

TO KILL *Roaches, Silverfish, Crickets* and *Spiders*: Apply as a coarse wetting spray directed into locations where these insects may hide, behind baseboards, moldings, cabinets, shelves, sinks, door and window frames, around plumbing, drains and in dark corners and into cracks and crevices, hitting insects with the spray whenever possible.

To kill ***Ants***, treat shelves, cabinets and storage areas; spray ant runs, trails, baseboards, thresholds and other places of entry and treat nests liberally.

To kill ***Fleas*** and ***Brown Dog Ticks*** in houses, direct the application toward the lower wall portions, baseboards, rugs, carpets and floors of infested areas. Also spray animal quarters, kennels and bedding.

To kill **Bedbugs** effectively, apply liberally to top, ends, sides and bottom of mattresses, spraying thoroughly all tufts, seams and folds. Spray springs and frame, directing the liquid into all cracks and lock joints. Treat walls, baseboards, moldings, floors, closets and bedroom furniture, picture frames, with particular attention to protected bedbug hiding and breeding places.

FOR MOST EFFECTIVE KILL OF **Clothes Moths** and **Carpet Beetles**, remove infested articles from storage, brush thoroughly and, if possible, air several hours in direct sunlight. Apply spray liberally in empty chests, closets, bureaus and storages, directing the liquid into cracks, joints and crevices. After airing, infested articles may be treated by holding the spray nozzle at least 3 feet away from the fabric and applying the liquid lightly to the seams to avoid the possibility of staining. Treat both sides of rugs, carpets and pads, and all exposed and accessible surfaces of over-stuffed furniture. Do not overspray if products are made of rubber or are rubber coated, to prevent expansion or swelling. Repeat treatments monthly unless the articles are stored in moth-tight containers.

Apply this spray thoroughly to all surfaces of shelves, cabinets, bins, pantries and similar food storage areas with particular attention to cracks, crevices, niches and other hiding places.

FOG OR VAPOR SPRAY: To kill accessible or exposed stages of insects named on this label (excepting **Clothes Moths, Bedbugs** and **Carpet Beetles**): Apply using conventional mechanical or compressed air equipment. Fill the entire area with mist using 3 to 6 ounces per 1000 cubic feet of space.
